

**Office of the Dean  
Faculty of Mathematics  
University of Waterloo**

The Office of the Dean in the Faculty of Mathematics at the University of Waterloo invites applications for two definite-term Lecturer positions. These appointments will have an initial term of three years with the possibility of renewal. The appointed Lecturers may be considered for promotion to an on-going appointment thereafter as Continuing Lecturer if they demonstrate outstanding performance in teaching and service. The expected start date is September 1, 2019.

A PhD or a Masters degree and evidence of excellence in teaching are required. Applicants must have a strong commitment to undergraduate mathematics education and excellent organizational and communication skills. Duties will include teaching six courses per year in core Mathematics undergraduate courses and service/administrative work within the University. Service may include academic advising or the development of digital assets for online courses or as textbook replacements. Experience in either of these two areas will be considered an asset. There is no research component to this position.

The salary range for the position is \$70,000-\$115,000 depending on qualifications and experience.

Interested individuals should apply using MathJobs (<https://www.mathjobs.org/jobs/jobs/13609>). Applications should include a cover letter, a curriculum vitae, a teaching statement and teaching evaluation summaries (if available). In addition, applicants should arrange to have at least three reference letters for teaching and possibly service submitted on their behalf. Applications received by March 15, 2019 will receive full consideration.

If you have any questions regarding the position, the application process, assessment process, eligibility, or a request for accommodation during the hiring process, please contact Professor Francis Poulin ([math.ug.ad@uwaterloo.ca](mailto:math.ug.ad@uwaterloo.ca)).

The University of Waterloo regards diversity as an integral part of academic excellence and is committed to employment equity and accessibility for all employees. As such, we encourage applications from women, Indigenous (First Nations, Métis and Inuit) peoples, persons with disabilities, members of diverse gender identities, and others who may contribute to the further diversification of ideas. At Waterloo, you will have the opportunity to work across disciplines and collaborate with an international community of scholars and a diverse student body, situated in a rapidly growing community that has been termed a “hub of innovation”. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will receive priority in the recruitment process.
