

**Mathematics Business and Accounting Programs**  
**Office of the Dean**  
**Faculty of Mathematics**  
**University of Waterloo**

The Mathematics Business and Accounting Programs Unit in the Office of the Dean in the Faculty of Mathematics at the University of Waterloo invites applications for two definite-term Lecturer positions in the Mathematics Business and Accounting Programs Unit. These appointments will have an initial term of three years with the possibility of renewal. The appointed Lecturers may be considered for promotion to an on-going appointment thereafter as Continuing Lecturer if they demonstrate outstanding performance in teaching and service. The expected start date is September 1, 2021.

A PhD or a Masters degree and evidence of excellence in teaching are required. Applicants with a background in statistics, actuarial science, finance, computer science, information technology management or the mathematics of business will be preferred. Applicants must have a strong commitment to undergraduate mathematics education and excellent organizational and communication skills. Duties will include teaching six courses per year and service/administrative work within the University. Service activities will focus on management of the Faculty's extensive undergraduate programs in the intersection of Mathematics, Computer Science and Business. Teaching will take place in both face-to-face and online classes.

The salary range for the position is \$80,000 – \$125,000 depending on qualifications and experience.

Interested individuals should apply on Math Jobs, ([www.mathjobs.org/jobs](http://www.mathjobs.org/jobs)). Applications should include a cover letter, a curriculum vitae, a teaching statement, and teaching evaluation summaries (if available). In addition, applicants should arrange to have at least three reference letters for teaching and possibly service submitted on their behalf. Applications received by March 15, 2021 will receive full consideration.

If you have any questions regarding the position, the application process, assessment process, eligibility, or a request for accommodation during the hiring process, please contact Director, Mathematics Business and Accounting Programs at [mathbus@uwaterloo.ca](mailto:mathbus@uwaterloo.ca)

The University of Waterloo regards equity and diversity as an integral part of academic excellence and is committed to accessibility for all employees. As such, we encourage applications from women, persons with disabilities, Indigenous peoples, members of visible minorities, and others who may contribute to the further diversification of ideas. At Waterloo, you will have the opportunity to work across disciplines and collaborate with an international community of scholars and a diverse student body, situated in a rapidly growing community that has been termed a “hub of innovation.”

All qualified candidates are encouraged to apply, however Canadians and permanent residents will be given priority.
